Visit the ruins of Tlos, an ancient settlement perched high on the hilltops that include an historical amphitheatre and rock tombs. Visit Yakapark trout farm and water gardens, a little corner of heaven created by man. Lunch of fresh trout (or chicken if you prefer) and large variety of salads is perfectly complimented by the sound of babbling brooks whilst you eat in dappled sunlight. Saklikent is the second longest gorge in Europe. Prepare to get your feet wet as you paddle across icy streams in your exploration of the widening rock canyon or just relax and watch the world go by, sipping Trukish tea on the riverside platform cafes, perched on water falls and watch evryone else get wet!
